RE: GMO Statement, National Bioengineered Food Disclosure Standard – BE Exempt Sweeteners

We are pleased to affirm that the following products are highly refined and are exempt from the USDA National Bioengineered Food Disclosure Standard (NBFDS).

- Allulose
- Corn syrup/glucose syrup
- Corn syrup solids/glucose solids
- Dextrose
- High Fructose Corn Syrup
- Maltitol syrup/crystalline
- Maltodextrin
- Mannitol
- Polyglycitol Powder/Syrup
- Sorbitol

Ingredion Incorporated is dedicated to delivering quality ingredients that meet the U.S. and Canadian guidelines for food safety and quality, including the use of genetically modified grains. While the corn used to produce these ingredients may be derived from genetically modified crops, these ingredients go through a highly refined manufacturing process. PCR testing has verified that these foods do not contain detectable levels of genetically modified DNA and do not require the Bioengineered Food Disclosure labeling.

If you require a product from non-GMO sourced material, Ingredion offers options that support non-GMO label requirements.

- **TRUETRACE® certified program:** For added visibility and tracing, we recommend our TRUETRACE® certified items, which are sourced from identity-preserved crops to ensure use of only non-GMO corn.
- **Non-GMO Project Verified:** For visibility and tracing backed by internal and external certifications, we recommend our TRUETRACE® Certified / Non-GMO Project Verified products.

The intent of this information is to support our customers efforts to develop and implement an appropriate labeling strategy for products containing Ingredion Incorporated ingredients or additives. In all respects, the ultimate decision on how to identify and label ingredients or additives remains with our customers. We urge you to review the relevant regulations carefully and to seek appropriate legal counsel as you determine the labeling requirements applicable to your products.

Thank you for your interest in Ingredion's products. Please contact us if we can be of any further assistance.
