RE: Batch Code Explanation NUTRAFLORA® P-95 - 70000497

The batch number for NUTRAFLORA® P-95 – 70000497 is based on the Manufacturer's code, sequential batch number and manufacture date. The first 2 letters indicate the Manufacturer's code, followed by 1 digit indicating the last digit of the year of manufacture, followed by 3 digits indicating the sequential batch number, followed by 3-digit Julian date of manufacture.

For example, if the batch number is MS-1012-068  
MS - Indicates the Manufacturer's code (M=Meiji, S=Samyang)  
1 indicates the year 2021  
012 indicates this is the 12th batch produced in 2021  
068 indicates the product was manufactured on March 9<sup>th</sup>.

Please advise if additional information is required.
